### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew Wilford on 1/30/08.

The application has been amended as follows:

In claim 21, line 2, "is" has been replaced with --includes--.

In claim 31, line 5, "low" has been replaced with --a predetermined--.

In claim 31, line 8, "a predetermined threshold" has been replaced with --the predetermined--.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose, singly or in combination, a rotary coupling as claimed in detail in claim 18.

Particularly, the prior art does not teach or fairly suggest the limitations "a strain element that changes size in response to temperature in the stator adjacent the seals" and "means coupling the strain element to one of the seals for shifting the one seal relative to the other seal in response to temperature changes adjacent the seals."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
